## The Study of Pre-modern Hebrew Philosophical and Scientific Terminology as a new Chapter in the Intellectual History of Europe and the Islamicate World: *PESHAT in Context*

- Giuseppe Veltri (University of Hamburg)
- Reimund Leicht (Hebrew University of Jerusalem)
- Michael Engel (University of Hamburg)
- Florian Dunklau (University of Hamburg)

PESHAT in Context is a long-term research project funded by the Deutsche Forschungsgemeinschaft and located at the University of Hamburg and the Hebrew University in Jerusalem. It investigates the formation and development of pre-modern philosophical and scientific terminology in the Hebrew language in its multi-cultural and multi-linguistic context(s). It is one of the major aims of PESHAT in Context to document and analyze the migration of philosophical and scientific concepts and idea through the study of the development of Hebrew terminology within its multilinguistic background. For this purpose, PESHAT in Context has created a multilingual digital thesaurus of philosophical and scientific terms accessible online, which is technologically founded on a newly developed database program. As a project in modern digital humanities, it provides tools and a unique platform to access a wide range of digital resources relevant for the linguistic, terminological and conceptual study of philosophy and science in Europe and the Islamicate world.

**Register in advance [here](#).** After registering, you will receive an email containing information about joining the webinar.

**Wednesday, November 10, 2021, 12:00 pm (EST)**

Hosted by **Sabine Schmidtke** (School of Historical Studies, IAS)  
and **María Mercedes Tuya** (Digital Scholarship, IAS).
